Subject Index

A

- Abscess
 - head and neck, older adult, 169
- Acinic cell carcinoma
 - glottis, 258
- Acoustic trauma
 - rapid recovery from, 198
- Adenoids
 - pediatric, protection from superoxide dismutase, 323
- Ameloblastic carcinoma
 - with multiple bony metastases, 64
- Angiofibroma
 - extranasopharyngeal, women, 414
- Arachnoid cysts
 - posterior fossa, mimic of Meniere's disease, 421
- Argon plasma coagulation
 - treatment of nonallergic hypertrophic inferior turbinates, 306
- Arytenoid adduction
 - glottal configuration, vocal outcomes and, 290
- Aspiration
 - intractable, staple-assisted laryngectomy use in, 70
- Auditory canal
 - external, mucoepidermoid carcinoma in, 274
- Auditory cortex
 - evaluation with silent FMRI, 281
- Aural polyps
 - inflammatory, 155
- Auricular cartilage grafts
 - tracheal reconstruction with, hyperbaric oxygen treatments in, 391
- Autoimmunity
 - etiology of otitis media with effusion, 159

B

- Basaloid squamous cell carcinoma
 - larynx, 204
- Bell's palsy
 - bilateral simultaneous, 271
- Benign paroxysmal positional vertigo (BPPV)
 - particle repositioning maneuver in, 355
- Bombs
 - facial blast injuries, primary and secondary, 75
- Bone
 - soft tissues and, solitary plasmacytoma, 396
- Branchial apparatus
 - fourth, fistula of, 250
- Bulimia
 - parotid hypertrophy with, controversial surgical technique in, 85

C

- Carotid artery
 - aberrant, in middle ear, multislice CT, 92
 - blowout, endovascular stent for, delayed complications of, 418

- CD44s and CD44v6
 - expression, laryngeal and pharyngeal cancer, 385
- Cerebrospinal fluid
 - leaks, after neurosurgery, endoscopic repair of, 213
- Cerumen
 - role in recurrent external otitis, 209
- Cervical fascia
 - fibromatosis of, 242
- Cervical space infection
 - deep, characterization of, 111
- Choanal polyp
 - from nasal septum, 261
- Cholesteatoma
 - mastoid obliteration by BMP-2/collagen composites, 14
- Chondroblastoma
 - temporal bone, 370
- Clinostomum parasite
 - laryngitis from, lidocaine spray used for capture of, 341
- Clivus
 - lesions, endoscopic approach, 317
- Cochlear implantation
 - bilateral vs unilateral, tone discrimination in Chinese patients, 19
- Computed tomography (CT)
 - accuracy, pediatric deep neck infections, 143
 - multislice, aberrant carotid artery in middle ear, 92
- Corniculate cartilage
 - subluxation, pharyngeal symptoms, 118

D

- Dermoid cyst
 - sublingual, rapidly growth, in pregnancy, 334
- Differential Mantoux test (DMT)
 - use in nontuberculous mycobacterial adenitis, children, 79
- Dysphagia
 - laryngeal leech, 338

E

- E-cadherin
 - expression, laryngeal and pharyngeal cancer, 385
- Encephalomyopathy
 - mitochondrial neurogastrointestinal, neural hearing loss and, 128
- Endoscopy
 - lesions, sphenoid sinus, orbital apex, and clivus, 317
 - nasopharyngeal angiofibromas, transnasal and transoral routes, 149
 - placement of tracheal stents, in complicated tracheal stenosis, 34
 - repair of cerebrospinal fluid leaks, after neurosurgery, 213
 - resection of ethmoido-orbital osteoma, optic nerve, 409
 - sinus surgery
 - for chronic rhinosinusitis, olfactory function after, 366
 - inverted papilloma with esthesioneuroblastoma, 181

- Endovascular stents
 - delayed complications of, 418
- Epiglottic abscess
 - rising incidence of, 375
- Epiglottitis
 - acute, rising incidence of, 375
- Esthesioneuroblastoma
 - inverted papilloma associated with, endoscopic sinus surgery, 181
- Ethmoid sinus
 - microbiology of chronic sinusitis, 164
- Etoposide
 - oral, concomitant radiation therapy, head and neck cancer, 1
- Expleomorphic adenoma
 - mucoepidermoid carcinoma, submandibular gland, 253

F

- Facial injuries
 - blast, primary and secondary, 75
- Facial paralysis
 - bilateral simultaneous Bell's palsy, 271
- Fibromatosis
 - cervical fascia, 242
- Fine-needle aspiration
 - for thyroid nodules, 217
- Fistula
 - fourth branchial pouch, 250
- Follicular lesions
 - thyroid, cytological and clinical value of, 217
- Foreign bodies
 - pharynx, migration through internal jugular vein, 89
 - sensation, throat, 118

G

- Gender differences
 - extranasopharyngeal angiofibroma, women, 414
- Giant-cell reparative granuloma
 - temporal bone, 191
- Glottis
 - acinic cell carcinoma, 258
 - carcinoma, laser surgery in, 28
 - configuration, vocal outcomes and, in arytenoid adduction, 290
- Granuloma
 - giant-cell reparative, temporal bone, 191

H

- Head and neck cancer
 - acinic cell carcinoma, glottis, 258
 - carotid artery blowout, endovascular stents for, 418
 - extranasopharyngeal angiofibroma, women, 414
 - juvenile nasopharyngeal angiofibromas, endoscopic resection, 149
 - laryngeal and pharyngeal, expression of E-cadherin, CD44s and CD44v6 in, 385
 - mixed myeloid/round cell liposarcoma, 121
 - Rosai-Dorfman disease, presenting as nasal and intracranial masses, 427
 - second, tobacco use and, 24
 - solitary plasmacytoma, bone and soft tissue, 396

- squamous cell
 - hyperfractionated radiation and oral etoposide, 1
 - postoperative radiotherapy for, 41

Hearing

- vertigo and, after congenital perilymphatic fistula surgery, children, 138

Hearing loss

- neural, mitochondrial neurogastrointestinal encephalomyopathy, 128
- sudden sensorineural, low-molecular-weight heparins in therapy of, 328

Hearing science

- tone discrimination, bilateral versus unilateral cochlear implantation, 19

Hemangioma

- intraosseous, zygoma, 194
- middle ear, 406

Hemoptysis

- laryngeal leech, 338

Heparins

- low-molecular-weight, role in therapy of sudden sensorineural hearing loss, 328

Histiocytic necrotizing lymphadenitis

- neck, 344

Hoarseness

- laryngeal leech, 338

Hyperbaric oxygen treatments

- in tracheal reconstruction, auricular cartilage grafts, 391

I

Imaging

- after radiation therapy, nasopharyngeal carcinoma, 224

Infection

- deep neck, CT accuracy in, children, 143
- deep surgical space, life-threatening, characterization of, 111

J

Jugular vein

- internal, foreign body migration through to pharynx, 89

K

- Ki-67 antigen expression
 - in laryngeal squamous cell carcinoma, 106
- Kikuchi-Fujimoto disease
 - lymphadenitis of the neck, 344

L

Labyrinthine fistulae

- management, chronic ear surgery, 51

Langerhan's cell histiocytosis

- bilateral temporal bone involvement, 265

Laryngeal cancer

- expression of E-cadherin, CD44s and CD44v6 in, 385
- laser surgery in, 28
- squamous cell, Ki-67 antigen expression in, 106

Laryngectomy

- staple-assisted, for intractable aspiration, 70

Laryngitis

- Clinostomum parasite causing, lidocaine spray used for removal, 341

Larynx

- basaloid squamous cell carcinoma, 204
- removal of leech, 338

Laser

- endoscopic carbonic dioxide, glottic cancer, 28

Lidocaine spray

- used for capture of *Clinostomum* parasite, larynx, 341

Lingual nerve

- intraoral schwannoma, 348

Lip, upper

- schwannoma, 351

Liposarcoma

- mixed myeloid/round cell, scalp, 121

Lymphadenitis

- histiocytic necrotizing, neck, 344

M**Magnetic resonance imaging, functional (fMRI)**

- silent, evaluation of auditory cortex, 281

Malleus

- osteoma of, 239

Mandible

- titanium alloy reconstructive plates, effects on radiation dosage, 231

Mandibulectomy

- marginal, oncologic and nononcologic outcome, 61

Mastoid

- exploration, for aural polyps, 155
- obliteration, BMP-2/collagen composites in, 14

Maxillary sinus

- microbiology of chronic sinusitis, 164
- pneumocele of, trigeminal irritation in, 236

Meniere's disease

- posterior fossa arachnoid cysts can mimic, 421

Middle ear

- aberrant carotid artery in, multislice CT imaging, 92
- hemangioma, 406
- osteoma, 239

Mortality

- deep surgical space infections, characterization of, 111

Mucoepidermoid carcinoma

- external auditory canal, 274

Mucosal carcinoma

- head and neck, tobacco use and, 24

Mycobacterial adenitis

- nontuberculous, children, 79

N**Nasal septum**

- choanal polyp from, 261

Nasal turbinates

- inferior, nonallergic hypertrophic, argon plasma coagulation treatment of, 306

Nasopharyngeal angiofibromas

- juvenile, endoscopic resection, 149

Nasopharyngeal carcinoma

- posttreatment changes and imaging findings, 224

Neck

- deep cervical space infections, life-threatening, characterization of, 111
- deep infections, accuracy of CT in, children, 143
- histiocytic necrotizing lymphadenitis, 344

Neurilemmomas. *see* Schwannoma**O****Odontogenic tumors**

- aggressive, with multiple bony metastases, 64

Olfactory dysfunction

- with chronic rhinosinusitis, endoscopic sinus surgery and, 366

Optic nerve

- endoscopic resection of ethmoido-orbital osteoma, 409

Oral cavity cancer

- intraoral schwannoma, lingual nerve, 348
- squamous cell, marginal mandibulectomy in, 61

Orbital apex

- lesions, endoscopic approach, 317

Oroantral fistula

- treatment, 221

Oronasal fistula

- treatment, 221

Osteoma

- ethmoido-orbital, optic nerve, endoscopic resection of, 409
- malleus, 239

Otitis

- external, cerumen role in, 209

Otitis media

- with effusion, autoimmunity in the etiology of, 159

P**Palatine tonsils**

- asymmetric, isolated tonsillar sarcoidosis, 187
- pediatric, protection from superoxide dismutase, 323

Papilloma

- inverted, with esthesioneuroblastoma, 181

Paranasal sinuses

- sinonasal rhabdomyosarcoma, pediatric, 174

Parapharyngeal abscess

- older adult, 169

Parasites

- Clinostomum*, laryngitis from, lidocaine spray used for capture of, 341

Parotid gland

- bulimic hypertrophy, controversial surgical technique in, 85

Particle repositioning maneuver

- in benign paroxysmal positional vertigo, 355

Pediatrics

- congenital perilymphatic fistula, hearing and vertigo after surgery in, 138

- deep neck infections, accuracy of CT in, 143

- juvenile extranasopharyngeal angiofibroma, female, 414

- juvenile nasopharyngeal angiofibromas, endoscopic resection, 149

- nontuberculous mycobacterial adenitis, 79

- osteoma of the malleus, 239

- otitis media with effusion, autoimmunity in etiology of, 159

- palatine tonsils and adenoids, protection from superoxide dismutase, 323

- sinonasal rhabdomyosarcoma, 174

- tracheotomy, outcome, 131

Perilymphatic fistula

- congenital, hearing and vertigo after surgery in, 138

- Peritonsillar abscess
 - older adult, 169
- Pharyngeal cancer
 - expression of E-cadherin, CD44s and CD44v6 in, 385
- Pharyngeal wall
 - posterior, forward movement on phonation, 401
- Pharynx
 - foreign body migration, internal jugular vein, 89
 - foreign body sensations, corniculate cartilage subluxation in, 118
- Phonation
 - forward movement of posterior pharyngeal wall, 401
- Plasmacytoma
 - solitary, bone and soft tissue, 396
- Pneumocele
 - trigeminal irritation from, rare differential diagnosis, 236
- Posterior fossa
 - arachnoid cysts of, mimic of Meniere's disease, 421
- Pregnancy
 - rapidly growing sublingual dermoid cyst, 334
- Pure-tone audiometry
 - FMRI evaluation, auditory cortex, 281
 - preoperative speech and, acoustic neuroma patients, 297

Q

- Quality of life
 - health-related, in rhino surgery, 97

R

- Radiation therapy
 - dosage, effects of mandibular titanium reconstructive plates, 231
 - hyperfractionated, concomitant oral etoposide and, head and neck cancer, 1
 - nasopharyngeal carcinoma, posttreatment changes and imaging findings, 224
 - postoperative, head and neck squamous cell carcinoma, 41
- Rhabdomyosarcoma
 - sinonasal, pediatric, 174
- Rhinorrhea
 - CSF, after neurosurgery, endoscopic repair of, 213
- Rhinosinusitis
 - chronic, endoscopic sinus surgery, olfactory function after, 366
- Rosai-Dorfman disease
 - nasal, with intracranial involvement, 183
 - presenting as nasal and intracranial masses, 427

S

- Sarcoidosis
 - tonsillar, manifested as asymmetric palatine tonsils, 187
- Scalp
 - mixed myeloid/round cell liposarcoma, 121
- Schwannoma
 - intraoral, lingual nerve, 348
 - upper lip, 351
- Sialadenitis
 - chronic sclerosing, submandibular gland (letter), 278

- Sinus histiocytosis with massive lymphadenopathy (SHML)
 - with intracranial involvement, 183
 - presenting as nasal and intracranial masses, 427
- Sinusitis
 - chronic, microbiology of ethmoid and maxillary sinuses, 164
- Sleep apnea
 - obstructive, modified uvulopalatopharyngoplasty for, 311
- Solitary fibrous tumor
 - malignant, tongue, 246
- Speech
 - preoperative, pure-tone audiometry and, in acoustic neuroma, 297
- Sphenoid sinus
 - lesions, endoscopic approach, 317
- Spindle-cell neoplasm
 - malignant, tongue, 246
- Squamous cell carcinoma
 - basaloid, larynx, 204
 - head and neck
 - hyperfractionated radiation and oral etoposide, 1
 - postoperative radiotherapy for, 41
 - laryngeal, Ki-67 antigen expression in, 106
 - oropharyngeal, marginal mandibulectomy in, 61
- Stents
 - expandable metal tracheal, in complicated tracheal stenosis, 34
- Submandibular gland
 - chronic sclerosing sialadenitis (letter), 278
 - mucopidermoid carcinoma, expleomorphic adenoma, 253
- Sudden sensorineural hearing loss (SNHL)
 - low-molecular-weight heparins in therapy of, 328
- Superoxide dismutase
 - protection from, pediatric palatine tonsils and adenoids, 323
- Surgery
 - acoustic neuroma, preoperative speech and pure-tone audiometry, 297
 - AlloDerm tympanoplasty, tympanic membrane perforations, 6
 - Argon plasma coagulation, treatment of nonallergic hypertrophic inferior turbinates, 306
 - biopsy, diagnosis of Langerhan's cell histiocytosis, 265
 - bulimic parotid hypertrophy, controversial technique, 85
 - chondroblastoma, temporal bone, 370
 - cochlear implantation, bilateral versus unilateral, 19
 - congenital perilymphatic fistula, hearing and vertigo after, children, 138
 - ear, chronic, management of labyrinthine fistulae, 51
 - endoscopic, lesions of sphenoid sinus, orbital apex, and clivus, 317
 - endoscopic carbonic dioxide laser, glottic cancer, 28
 - endoscopic resection of ethmoido-orbital osteoma, optic nerve, 409
 - endoscopic sinus
 - for chronic rhinosinusitis, olfactory function after, 366
 - inverted papilloma associated with esthesioneuroblastoma, 181
 - fibromatosis, cervical fascia, 242

laryngoplastic phonosurgery, in vocal cord paralysis, voice quality and, 361
 malignant solitary fibrous tumor, tongue, 246
 mandibular titanium reconstructive plates, effects on radiation dosage, 231
 marginal mandibulectomy, oncologic and nononcologic outcome, 61
 modified uvulopalatopharyngoplasty, for obstructive sleep apnea, 311
 neurosurgical, cerebrospinal fluid leaks after, endoscopic repair, 213
 nontuberculous mycobacterial adenitis, children, 79
 postoperative radiotherapy, head and neck squamous cell carcinoma, 41
 recurrent cholesteatoma, mastoid obliteration by BMP-2/collagen composites, 14
 removal of laryngeal leech, 338
 rhino, health-related quality of life in, 97
 tracheotomy, pediatric, outcome, 131

T

Temporal bone
 bilateral involvement, Langerhans' cell histiocytosis, 265
 chondroblastoma, 370
 giant-cell reparative granuloma, 191
 Thyroid
 follicular lesion, cytological and clinical value of, 217
 Thyroplasty type 1
 in symptomatic unilateral vocal cord paralysis, voice quality and, 361
 Tissue engineering
 BMP-2/collagen composites, use in mastoid obliteration, 14
 Titanium alloy plates
 mandibular, effects on radiation dosage, 231
 Tobacco
 usage, second head and neck cancer with, 24
 Tone discrimination
 bilateral versus unilateral cochlear implantation, Chinese patients, 19
 Tongue
 malignant solitary fibrous tumor, 246
 Tooth extraction
 orofacial fistula after, treatment, 221

Trachea
 reconstruction, with auricular cartilage grafts, hyperbaric oxygen treatments in, 391
 Tracheal stenosis
 complicated, expandable metal tracheal stents for, 34
 Tracheotomy
 pediatric, outcome, 131
 Trigeminal irritation
 pneumocele as a rare differential diagnosis, 236
 Tympanic membrane
 perforations, AlloDerm tympanoplasty of, 6
 Tympanoplasty
 AlloDerm, tympanic membrane perforations, 6

U

Uvulopalatal flap
 extended, for obstructive sleep apnea, 311
 Uvulopalatopharyngoplasty
 modified, for obstructive sleep apnea, 311

V

Velopharyngeal movement
 on phonation, 401
 Vertigo
 benign paroxysmal, particle repositioning maneuver in, 355
 hearing and, after congenital perilymphatic fistula surgery, children, 138
 Vocal cord paralysis
 symptomatic unilateral, evaluation of voice before and after, 361
 Voice
 evaluation of quality, before and after symptomatic unilateral vocal cord paralysis, 361
 glottal configuration and, arytenoid adduction, 290

W

Warthin's tumor
 mucoepidermoid carcinoma and pleomorphic adenoma with, 253
 Wound contamination
 in intractable aspiration, staple-assisted laryngectomy use in, 70

Z

Zygoma
 intraosseous hemangioma of, 194
